REFERENCE
Ultimo PowerSlim Subwoofer Series

The Ultimo PowerSlim subwoofers are the best solution for vehicles that are limited on space. These exceedingly slim subwoofers utilize a huge 5.1-inch voice coil and Morel's innovative EVC™ motor topology with a powerful double ferrite magnetic system to produce accurate, commanding bass. The compact chassis built with Uniflow™ design allow the PowerSlim to fit in even the most space-restrictive automotive environments without sacrificing the ability to perform at the highest level to satisfy the most critical enthusiast.

Key advantages

- Optimized to work in enclosure volumes nearly half the size of traditional subwoofers
- Exceptional shallow mounting depth
- Class leading power handling
- Engineered to be extremely musical and dynamic
- Klippel and FEA optimized

Specifications	Size & Configuration	Impedance	Min/Max Power Handling (WRMS)	Mounting Depth
Ultimo PowerSlim PS104D	10" (263mm)	4Ω+4Ω	350 / 700	3.1" (80.1mm)
Ultimo PowerSlim PS124D	12" (305mm)	4Ω+4Ω	350 / 700	3.4" (86mm)

Recommended (Vented) Ported Enclosure	Volume Net	Port	Tune To
PS104D	0.8 cuft 22.7 L	W 7" x H 1.8" x L 30" W 177.8mm x H 45.7mm x L 762mm	26 Hz
PS124D	1.4 cuft 39.36 L	W 5" x H 1.4" x L 35" W 127mm x H 35.6mm x L 889mm	24 Hz

Recommended Sealed Enclosure	Volume Net	F3
PS104D	0.5 cuft 12.7 L	42 Hz
PS124D	0.8 cuft 20.5 L	36 Hz
